

# EQUIPMENT SALES + RENTALS

## THE LARGEST ELECTRICAL EQUIPMENT PROVIDER IN CANADA

When your electrical system needs maintenance or is down it's imperative to have fast access to the parts and equipment to keep your power infrastructure stable. Delivered through LIZCO Sales & Rentals, Spark Power serves the high voltage industry with new, used and rental equipment to meet your power infrastructure needs. We offer a wide selection of equipment, including; power transformers, switches, breakers and fusing to energy project developers, OEMs and asset owners and operators.

We specialize in transformers (dry and oil filled), medium and low voltage switchgear and circuit breakers, along with obsolete and hard to find electrical components and ship worldwide.

## FAST AND EASY ACCESS ONLINE

We carry an extensive inventory of medium and high voltage electrical equipment from the most popular manufacturers in our warehouse. Ordering is available online giving you fast and cost effective access to the equipment you need when you need it. We have in stock new and used:

- ✓ Fuses (lower, medium and high voltage specializing in S&C 5KV-46KV)
- ✓ 600 volt air indoor circuit breakers by Federal Pioneer, K-DON, Siemens, ITE, Square D, Siemens, General Electric, Cutler-Hammer, Unilec and more
- ✓ 5000 and 15,000 volt air indoor circuit breakers
- ✓ Vacuum, insulated case, outdoor oil substation and outdoor gas model high voltage circuit breakers
- ✓ Circuit switches
- ✓ Pole switches from 14.4KV-44KV
- ✓ Single phase transformers (Pole mounted and pad mounted )
- ✓ Three phase dry transformers from 5KVA-5,000KVA
- ✓ Three phase oil filled transformers from 25KVA-45MVA (Pole mounted, pad mounted, station class)
- ✓ GE 26 and 51KVA precipitator transformers

## OUR EXPERT ELECTRICAL TECHNICIANS & ENGINEERS

With expert electrical technicians and engineers on staff, we can refurbish and/or make custom modifications to your existing electrical equipment in our fabrication shop. Our experienced team of power system engineers and fabricators can design and build your next substation for you.

## OUR EXPERIENCED POWER SYSTEMS SPECIALISTS

We have significant experience in the high voltage sector, but our reputation for quality and commitment to excellence doesn't stop at there. Our sales team consists of highly-trained and capable experts, who have worked in the field and can help you find the parts and equipment you need, with the backing of our on-site engineering department along with our own custom fabrication shop.
